OBJECTIVE

As a recent graduate with a robust programming background in HTML, CSS, JavaScript, Java, MongoDB, MySQL, and PHP, I am eager to apply for a **Java or Web Developer** position. My goal is to contribute my technical skills to enhance business operations through web development solutions. Inspired by a commitment to tailored business services and driving growth, I aim to leverage my proficiency to support efficient operations, contribute to strategic planning, and ensure long-term success for the organization.

EDUCATION

Computer Programming (3.8 GPA)   2022 – 2023
2 yrs. Program, Algonquin College, Ottawa, ON Canada

Environmental Technology   2015 – 2018
3 yrs. Program, Fanshawe College, London, ON Canada

General Arts and Science program   2015 August
1 yr. Certificate, Fanshawe College, London, ON Canada

WORK EXPERIENCE

Lab Assistant   Mar 2022 – Dec 2022
Element Materials Technology, Edmonton, CA
- Received and inspected environmental samples coming from clients and other laboratories.
- Assisted team manager and notified of any potential problems with samples, analysis, or client requests.
- Documented all communications with clients and entered sample and client information into LIMS.

Quality Control Technician   Oct 2019 – Oct 2021
Shamir Canada, London, CA
- Ensured the quality of lenses against standards by completing visual inspections and measurements.
- Identified and reported recurring manufacturing problems and damages to the supervisor to reduce overall defect rates.

Server   June 2018 – Oct 2019
Ozen Korea, London, CA
- Served customers in a friendly and professional manner, assisting them with reservations and any inquiries they had both in person and over the phone.
- Maintained the general orderliness and hygiene of the dining and kitchen area, bathrooms, and lobby entrance on a regular basis.
